

# Root2Rise needs your help expanding our team

...Interested?

Are you a licensed mental health provider (MFT, MHC, LCSW, PsyD, PhD or the likes?)

Here is what you do: good therapy

Here is what we do:

- give you an office with 5 unique treatment rooms
- all the technical support you need for your online/remote sessions
- warm hand off of all your clients so you don't have to return phone calls, and you know they will show up
- screen clients so it's the population you want to work with
- handle all your paperwork and all your billing
- invite you to our consult group
- give you full administrative support

At Root2Rise we promise to handle all of this, so you can just do that one thing that matters the MOST to our clients, good therapy.

If you are looking to take your therapy work to the next level, please contact us, we look forward to supporting your growth.
